SKILLS

Programming Languages

Python · SQL · Ada · C++ · LaTeX

Tools, Software & Systems

Windows · Linux · Visual Studio · MATLAB · NumPy · LTspice

Creative & Entrepreneurial

Digital design · Canva · Graphic design · E-commerce & online sales · Online store management

Soft Skills

Problem-solving · Adaptability · Teamwork · Leadership · Creativity · Analytical thinking · Time management · Decision-making

LANGUAGES

Arabic	**Native**
French	**Bilingual**
English	**C1**
Spanish	**B1**

SPORT & ACTIVITIES

Running & Endurance

Challenge, discipline and perseverance.

Volleyball & Team Spirit

Teamwork, communication, adaptability.

Portrait Art & Digital Design

Portraits and original digital artwork.

Mohamed Yassir Mezzat

Engineering Student · Sciences du Numérique (SN)

ENSEEIHT · Toulouse

> Engineering student at ENSEEIHT, interested in technology, problem-solving, mathematics and the way ideas become real systems. Also a professional artist and digital designer.
> **Open to new opportunities and creative collaborations.**

EDUCATION

ENSEEIHT · Toulouse, France — **2026 — 2029**

Bachelor of Engineering · Sciences du Numérique (SN)

CPGE — Lycée Omar Ibn Al Khattab · Meknès, Morocco — **2024 — 2026**

Undergraduate Preparatory Program · Mathematics and Physics (MPSI / MP)

Flowers High School · Meknès, Morocco — **2021 — 2024**

Scientific Baccalaureate in Mathematics · Engineering Sciences specialization

PROJECTS

Chaotic Systems: Dynamics & Mathematical Analysis

Research project — a theoretical and numerical study of nonlinear dynamics through the Chua circuit: equilibrium points, bifurcations, sensitivity to initial conditions and the emergence of chaotic attractors.

Python · LTspice · Circuit Prototyping · Experimental Validation

Chaos-Based Encryption & Secure Communications

Research project — communication systems built on synchronized nonlinear oscillators: encoding information into chaotic signals and recovering it at the receiver, examining synchronization, signal masking and parameter mismatch.

Python · LTspice · Signal Measurement & Analysis

Digital Product Entrepreneurship & E-commerce Management

I manage an online business selling digital printables and original designs on Shopify and Etsy (digitaltrinketsbyrey.etsy.com). It taught me to create and price products, market them, and learn from customer feedback.

Graphic Design · E-commerce Management · Digital Marketing · Entrepreneurship

INTERNATIONAL MOBILITY PLAN

Georgia Tech, Atlanta (USA) — PREFERRED DESTINATION

Expanding Horizons Through Global Education

Also considering Brazil, particularly the University of São Paulo (USP) and UNICAMP.

International Exchange · Research · Cultural Diversity · Academic Growth

SUSTAINABILITY & CIVIC ENGAGEMENT

Pink October Run — FUTURS PROCHES FESTIVAL

Breast cancer awareness and prevention through sport, with Alliance Sport-Santé.

Climate Fresk — ENSEEIHT

Workshop on climate change and our responsibilities as future engineers.

Clean Walk — FUTURS PROCHES FESTIVAL

Collecting litter and cigarette butts across Toulouse's university campus.

Gender-Based Violence Awareness — ENSEEIHT

The Trial of King Kong, immersive theatre on harmful behaviours & power dynamics.
